MULTI-LEVEL HEALTH PRODUCTS.

Here are two ways to get referrals by including everybody you know in your referral systems.

I'm accredited by the State of California to give continuing education credits to nurses and, now, certified *nursing assistants*. A lot of nursing assistants were calling me because the people in Sacramento, from the main office, refer people to me.

I also have a tennis coach who is now referring me to other people, too. And we've worked out a contract so he's getting a percentage.
